"to": "stern@q3mcco35auwcstmt.onion",
"body": "\nSure! I think in your other email, you specified that you will like the following datasets:\n\nIPto Geolocation\nIPto ASN\nIPto Company\n\nIP to Carrier Detection\nPrivacy/VPN Detection\nIPWHOIS (RWHOIS + RIR)\nHosted Domains\nWhich pretty much constitutes as all our datasets and we offer a great combined price of USD15k/month for monthly updates. Weekly will be USD18k/month and daily will be closer to USD20k/month. Note that for all 3 options, we offer the standard months2 discount (so x10 instead of x12) if you pay a year up front e.g. USD150k/year for monthly updates. \n\nHope that made sense and let me know if pricing works for you! I can also get an official quote out for you if you like.

          "body": "Sure! I think in your other email, you specified that you will like
the following          datasets:\n\nIPto      Geolocation\nIPto      ASN\nIPto
Company\nIP to Carrier      Detection\nPrivacy/VPN      Detection\nIPWHOIS
(RWHOIS + RIR)\nHosted Domains\nWhich pretty much constitutes as all our datasets
and we offer a great combined price of USD15k/month for monthly updates. Weekly
will be
USD18k/month and daily will be closer to USD20k/month. Note that for all 3 options,
we offer the standard months 2discount (so x10 instead of x12) if you pay a year up
front e.g. USD150k/year for monthly updates. \n\nHope that made sense and let me
know if pricing works for you! I can also get an official quote out for you if you
like.

There is a story that I was planning to go on vacation.\nHope to have time to
rest, the summer is already ending I have a year without rest.\nIn this regard, I
want to ask not to fill the next 3-4 weeks with new tasks on the functionality. I
will try to finish AB check today, tomorrow at most, I have the data, but the
regulars need to be finished.\nnIn I will unload the tax, and fix logpost, refine
cookies with Nicholas and give the system for support, I do not know exactly who,
but we discuss it.\nnI will be back from vacation and we will quietly continue to
develop the system. What I see now is that

```

I will be back from vacation and will be ready to continue to develop the system and features in it already.nHow do you think there is a possibility to limit requests for new features?
