\n[22:30:57] <dgh> Got it?\nIf you intend not to let me go on vacation if something is not finished, and I suspect that may be, you'd better immediately create a confab with the booze and let's discuss this point\nI will buy tickets and will not change anything if something goes wrong\n[22:32:26] <dgh> And in the end just go regardless of what will happen, I want it too much. I don't want any unnecessary problems. But I'm not ready to go on any terms I don't understand either.\nI have a list of tasks I'm ready to do and I'm doing it, we've agreed on it. \n[22:33:13] <dgh> Anything from above

- Not only my responsibility\nAt least yours, booza's, and nikolos's[22:33:24] <dgh> I take my part and what I can do. \n[22:34:50] <dgh> I won't do more than I can anyway, if this tone of conversation continues - it does not suit me.\nAgain, you want to push me like this, let's discuss. And either look for someone else like you wanted or let's negotiate. I'm very tired and I'm also sick and tired of nothing working."

```

Ready to give the assembly as a dll. We only need two things: \n1) need to know for which bot dll, ie what entry point to make (with what it will run) \n2) need a server, the previous one is not paid (or I see the wrong version), in general, you need to order it again, we can order and deploy, but need confirmation nThe exe is almost the same. But for dll - you need to know how to correctly make entry points in the dll.
