Then you unilaterally broke it and wrote that you'd do it on Friday. \It's Monday night, you wrote two hours ago that you'd do it now. Where's the bottom line? How are we gonna work this out? I don't like that I have to stand there with a stick and write to you in the spirit of where, when, who? I'm counting on my independence and responsibility, I have a full load of tasks, if I can't get help from you, and I will allocate separate resources for this process, it will not help the common cause.\nIn our side you have provided everything, if any You can always write some questions on your own part and do the part that you took on yourself.

"Hey, Francis told me yesterday that my salary is in question because of the
complaint.
now and need to write to you. last week frank asked to renew his two test servers,
they were not in the renewal, because in august he said \"...see...\" about them, i
do not remember exactly. i paid for these servers and they in 10min included all
ok. like the next day defender wrote me that frank complained about me and
generally these servers are important. i explained him the situation also, about
their importance i first told defender himself, agreed that i would extend and ask
customers about the extension when ordering, there was no showdown, with frank
dialogue besides the extension was no more, only he apparently also wrote to
francis, who sent me to you. before that there were also situations, but i took
measures, i did inventory for a month, i demolished the system, i updated all the
lists, no problems. with frank's servers my responsibility, i should have contacted
him myself, but i did not think that they were needed at all".

they were not in the renewal, because in august he said \"...see...\" about them, i
do not remember exactly. i paid for these servers and they in 10min included all
ok. like the next day defender wrote me that frank complained about me and
generally these servers are important. i explained him the situation also, about
their importance i first told defender himself, agreed that i would extend and ask
customers about the extension when ordering, there was no showdown, with frank
dialogue besides the extension was no more, only he apparently also wrote to
francis, who sent me to you. before that there were also situations, but i took
measures, i did inventory for a month, i demolished the system, i updated all the
lists, no problems. with frank's servers my responsibility, i should have contacted
him myself, but i did not think that they were needed at all".

The investigator summoned us for an interview next Tuesday, but kind of as witnesses for the time being. Also, as the investigator said, the case was prolonged until the end of October, so we could have a conversation with us⁵¹. Because if the case is suspended, we can not be interrogated in any way, and in fact because of this it was renewed. We have already contacted our lawyers. Question: Would it be possible to get our salaries? What if I could extend my lawyer and take a vacation till the end of October? To get all this bullshit sorted out. The only thing is I'll go in and give out routers every day. I give them out to Thunder and Def."
