Ready to give the assembly as a dll. We only need two things: \n1) need to know
for which bot dll, ie what entry point to make (with what it will run) \n2) need a
server, the previous one is not paid (or I see the wrong version), in general, you
need to order it again, we can order and deploy, but need confirmation nThe exe is
almost the same. But for dll - you need to know how to correctly make entry points
in the dll.
