"I don't want to snitch or anything like that, but we have this kind of thing everywhere and in everything, it really stresses me out, I try to move them all, but I can't keep track of them all.\Now it comes to the absurd, like I order a server and wait a week, I write to everyone why they have not issued, the answers are dumbest, like I was cheated by the reseller. Or here, Love for example had to buy an acre - I do not have PPG, and I can not buy them anywhere. \How much did I say it's worth, bro? - 70 bucks. I said, "Well, what are you a fool or what, could not make a week, and from the PC to fill up and pay - I have no PC.
