\n\n2. Verone's been contacted.
- He has problems with the dock so far. I promised him to help during the holidays,
either dock will make him, or the second option is the container. On the launch
will say during the holidays - waiting for how to solve the problem with the
dock\delivery payload.\n\n3. You still haven't answered what kind of configuration
you need for the installs. Remind that we decided to give it the version of Trick2
(which was originally planned for Target) for Veron - what modules should be in the
configure of Trick, and which can be removed in order not to stain unnecessary
modules and reduce weight of the exe. If I understand the structure of the software
correctly - I need injector, pvgrub, importdll. What other modules are vital in the
configuration? \n\n4. I've contacted hors about admins - he clarified the problem,
he says we need more pentesters, not admins. And at 6 am in my beautiful and
drunken head came up with a great idea where to get them :) Remember Revils PR'd on
Damag - a thousand bucks in bitcoins on the deposit and then they started tearing
up the topic - they wrote there that they are inviting teams of hackers / pentester
to work with them. They wrote five pages of their topic with offers! They wrote
something like. \"Team 3 people experience, etc.\" and there are a lot of them 5 or
more pages! That's where we'll get them! I spammed on them all personalities with
an offer of work + many there are contacts left (though toks all). By the number10
will be done. The only question is about payment to them. How much do we pay? 2k -
as all? {\nIn me if you can)) bc1qclzlkkq8j3ckmulye0k5k5xpzfymssxxha735mlauf"
          }

              "to": "stern@q3mcco35auwcstmt.onion",

```

"And here's more. I suggest that for Veron always prepare 2 files for 2 groups at once. So that if the file gets tired quickly (and we have this not uncommon + its volume) - we always have a ready crypted second file in order to avoid downtime and waiting for cryptors. I think it would be a good move, just remembering times when I myself poured - our main problem was to get the file by 10 am (and he is an early bird and does not tolerate delays) and the second point - the replacement of crypts - before it could last an hour<sup>2</sup>. And with this maneuver we have a good reassurance.

```

    "body": " Stern writes me where the results and what can I do if they do not want
for 150k
work \n[01:21:56] <buza> it's not me who raises the salary \n[01:22:03] <buza>
stern and raises the salary \n[01:22:08] <buza> tell him so \n[01:22:33] <buza> my
position is: we are ready to raise the salary to what the candidate wants if he can
CONVINCEDLY prove that he is worth the money \n[01:22:39] <salamandra> I write him
about the salary he'll get. and now I asked him where the results are or he'll fire
me \n[01:22:58] <buza> he won't \n[01:23:07] <salamandra> pissed) \n[01:23:21]
<buza> well, just quote me to him, and give him statistics on how many resumes you
had and how many refused because of the salary \n[01:23:53] <buza> the problem is
that I have no idea how he can convincingly prove his worth \n[01:24:20] <buza> if
you make a complicated task, it will take him a long time to decide \n[01:24:28]
<buza> and part of it will refuse at all \n[01:24:39] <buza> so he should show some
of his existing past merits \n[01:24:43] <buza> like, here I found such and such
CVE \n[01:25:23] <buza> in general it's the candidate's problem - I think if a
person wants 5-7k, and he REALLY deserves it, then he's got some baggage behind him
that he can show"

    "Body": "1. I wrote everything to Salamander, I'm waiting for reports from him.
    \n\n2. Verone's been contacted.
    - He has problems with the dock so far. I promised him to help during the holidays,
    either dock will make him, or the second option is the container. On the launch
    will say during the holidays - waiting for how to solve the problem with the
    dock\delivery paiload.\n\n3. You still haven't answered what kind of configuration
    you need for the installs. Remind that we decided to give it the version of Trick2
    (which was originally planned for Target) for Veron - what modules should be in the
    configure of Trick, and which can be removed in order not to stain unnecessary
    modules and reduce weight of the exe. If I understand the structure of the software
    correctly - I need injector, pvgrub, importdll. What other modules are vital in the
    configuration? \n\n4. I've contacted hors about admins - he clarified the problem,
    he says we need more pentesters, not admins. And at 6 am in my beautiful and
    drunken head came up with a great idea where to get them :) Remember Revils PR'd on
    Damag - a thousand bucks in bitcoins on the deposit and then they started tearing
    up the topic - they wrote there that they are inviting teams of hackers / pentester
    to work with them. They wrote five pages of their topic with offers! They wrote
    something like. \"Team 3 people experience, etc.\" and there are a lot of them 5 or
    more pages! That's where we'll get them! I spammed on them all personalities with
    an offer of work + many there are contacts left (though toks all). By the number10
    will be done. The only question is about payment to them. How much do we pay? 2k -
    as all? {\nIn me if you can)) bc1qclzlkkq8j3ckmulye0k5k5xpzfymxxxha735mlauf"

    "And here's more. I suggest that for Veron always prepare 2 files for 2 groups at
    once. So that if the file gets tired quickly (and we have this not uncommon + its
    volume) - we always have a ready crypted second file in order to avoid downtime and
    waiting for cryptors. I think it would be a good move, just remembering times when
    I myself poured - our main problem was to get the file by 10 am (and he is an early
    bird and does not tolerate delays) and the second point - the replacement of crypts
    - before it could last an hour2. And with this maneuver we have a good reassurance.

    "body": " Stern writes me where the results and what can I do if they do not want
for 150k
work \n[01:21:56] <buza> it's not me who raises the salary \n[01:22:03] <buza>
stern and raises the salary \n[01:22:08] <buza> tell him so \n[01:22:33] <buza> my
position is: we're ready to raise the salary to what the candidate wants if he can
CONVINCEDLY prove that he's worth the money \n[01:22:39] <salamandra> I write him
about the salary he'll get. and now I asked him where the results are or he'll fire
me \n[01:22:58] <buza> he won't \n[01:23:07] <salamandra> pissed) \n[01:23:21]
<buza> well, just quote me to him, and give him statistics on how many resumes you
had and how many refused because of the salary \n[01:23:53] <buza> the problem is
that I have no idea how he can convincingly prove his worth \n[01:24:20] <buza> if
you make a complicated task, it will take him a long time to decide \n[01:24:28]
<buza> and part of it will refuse at all \n[01:24:39] <buza> so he should show some
of his existing past merits \n[01:24:43] <buza> like, here I found such and such
CVE \n[01:25:23] <buza> in general it's the candidate's problem - I think if a
person wants 5-7k, and he REALLY deserves it, then he has some baggage behind him
that he can show"

contact with the Russian diaspora in Brooklyn, we have our own chief judge there) is that here the court president - she immediately gave us her lawyer who moves with her. All the states there have their own laws and lawyers accordingly. This one specifically from Florida, he's a local there, he kind of knows everyone. At 5 a.m. they blew him up) they gave him all the information he needed. Told them so: we need to clarify the situation with all the latest news, find out who her lawyer and what claims go to her, etc., in general, while intelligence, try to get all the official papers that there is and then we will think. She got a job on the Internet, she didn't know what she was doing and who she was working with. I'll keep you informed.

acct, confirmed now will be much better to look for people, you can at least how
much to send ads, rather than where I took originally, only 50 a day to send could
be. So now quickly will go, all the same on the XX that who would not say, but it
has more people. Well, since the Mon, I wrote that a man3 must go sys admins. So by
the end of the month, I will find
50 as many people as are required of me."

employees,

```

Then you make up the scripts, and then you divide them into operator departments, for example, the first for warming up, the second for action, the third for fixing. Just an example: you find out the name and phone number of their sysadmin. And the numbers of ordinary low-end IT people. Warmers call with a substitution of numbers from the IT-specialists and ask why they have not updated any software or Windows (examples are all), like procrastination is the risk of hacking and he's like the blame will come after, like you're dumping all the newsletter with screenshots and manuals. He says he did not get anything. The IT-specialist says that he will pass the information to the sysadmin and contact the client again. Before that you have to call him by name and position. The second department calls on behalf of the sysadmin and from his number, and says "no remote access," like they said to update earlier, they say, "install the update and give him a link to a payload file such as mega or rklouda, or something else, or a link just his or the mail saves. He puts it running, then either plays the scheme to the third stage, like happy to send a technician to the department and he will do everything, and the technician calls and specifies the time when he comes to them, and the man

calmly waiting for him does not panic like something launched and so on  
\n[17:04:06] <Ali> Next they call and at the direction of the director  
\n[17:04:10] <Ali> Well sort of like this \n[17:04:17]  
<Ali> There are many scripts \n[17:04:33] <Ali> But we need to automate the process  
\n[17:04:36] <Ali> There are robots \n[17:04:49] <Ali> You set them up with scripts  
\n[17:05:03] <Ali> And the operators just answer the robot \n[17:05:10] <Ali> They  
mark the result \n[17:05:27]27] <Ali> The robot itself dials as there's an  
available operator \n[17:05:41] <Ali> And the contact itself then sends to the  
right stage or cart \n[17:05:47] <Ali> Have you tried that?\n[17:32:54] <Ali> I  
started working this way, within a month I had results, unnecessary scripts and  
actions were sifted out, the necessary remained and finalized \n[17:42:28] <Ali>  
Target exactly how it worked.
