We are tits me, haggling like schoolboys, gangsters do not behave that way, all these concessions to nothing, I did not even expect from you that kind of thing :-D You just need to be realistic at the beginning of the redemption and stand firm on its own. And we start with a lakh and agree to 100k. Given the fact that the FBI is sitting all over the place monitoring all these negotiations - I think they're making fun of us. There's a reason they're pulling all these negotiations, studying us, our wallets, etc... And if they are so damn relaxed and do not want to pay - let's have some kind of violent protest. Maybe a big plum what a loud, or even something that will attract attention, maybe even make lokov and plums without any redemption - a show flogging type) Discount there companies

3050100 -   Throw out all the data, whom we can catch... you can not even large, but so that it was heard, so that everyone else will strain and think less... And change the color of the admin panel, we're a locker, not a tiffany :-D".
